

Falah E-commerce Website

brief : My Online Store (E-Commerce Website) it work on:

- For the sale of agricultural tools, seedlings and various plants and the sale of large agricultural machinery
- The customer will log in by entering the email and the name. He does not need to fill in a lot of data. He will have items that we sell, then for each item a variety of products at reasonable prices.
- **The main goal** : Facilitating farmers to access all the tools and machines needed for the farming process to get the best results. In addition, the site targets the public who suffer from obtaining a lot of plants and trees that do not exist in the Arabs, so we import everything the customer needs. He can suggest and send aftermarket via the site's email
